

33rd M. Smoluchowski Symposium on Statistical Physics

Friday, 4 December 2020

S6 (16:00 - 18:00)

| time | [id] title | presenter |
|-------|--|------------------------|
| 16:00 | [51] Thermodynamics in biology: From molecular motors to metabolism | ESPOSITO, Massimiliano |
| 16:30 | [41] On zero-delay synchronization in a network of timed automata modeling cardiac tissue | MAKOWIEC, Danuta |
| 17:00 | [7] Protein noise floor in gene expression: How cell growth and division contribute to it? | OCHAB-MARCINEK, Anna |
| 17:20 | [4] Biological Networks Regulating Cell Fate Choice Are Minimally Frustrated | Prof. KESSLER, David |
| 17:40 | [6] Diffusion limitations and translocation barriers in atomically thin biomimetic pores | ZWOLAK, Michael |
