

34th M. Smoluchowski Symposium on Statistical Physics

Tuesday, 28 September 2021

S6: S6 (16:00 - 18:00)

time	[id] title	presenter
16:00	[39] Accumulation time of stochastic processes with resetting	BRESSLOFF, Paul
16:30	[13] Geometric Brownian Motion under Stochastic Resetting: A Stationary yet Non-ergodic Process	STOJKOSKI, Viktor
16:50	[21] Random amplitude stochastic resetting	Mr DAHLENBURG, Marcus
17:10	[23] The role of the Laplace distribution in stochastic resetting	STANISLAVSKY, Aleksander
17:30	[62] Gut's complexity	Dr CHIALVO, Dante R.
17:50	[35] First passage under restart for discrete space and time	LAUBER, Ofek
17:55	[54] Bayesian inference of Lévy walks via hidden Markov models: parameter estimation and model classification	Mr PARK, Seongyu
