

56 Cracow School of Theoretical Physics: A Panorama of Holography

Tuesday, 24 May 2016 - Wednesday, 1 June 2016

Zakopane

Scientific Programme

A HoloGrav network event organized in the framework of the conference series: stringtheory.pl

Topics include:

The AdS/CFT correspondence

Integrability

Holography and quark-gluon plasma

Applications to modelling condensed matter phenomenae

Higher-spin gravity/CFT correspondence

Scattering Amplitudes

Conformal bootstrap

Exact results and localization

Entanglement and holography
