

# 36th M. Smoluchowski Symposium on Statistical Physics: Soft Matter, Information Processing and Nonequilibrium Fluctuations

## Wednesday, September 27, 2023

### Session 12 (5:15 PM - 6:05 PM)

time	[id] title	presenter
5:15 PM	[18] Entropy-driven formation of modulated and frustrated mesophases in a system composed of bent-core molecules	KUBALA, Piotr
5:40 PM	[16] Properly dealing with recent discoveries in suspensions of bent colloidal rods by means of a grand-canonical Landau-de Gennes theory	ANZIVINO, Carmine
