

30th Marian Smoluchowski Symposium on Statistical Physics

Monday, 4 September 2017

Session 3: Panel B - 56 (16:30 - 18:05)

-Conveners: Aleksander Weron

time	[id] title	presenter
16:30	[95] Harmonic spectral components in time sequences of Markov correlated events with an application to EEG and MEG signals	CARBONE, Anna
17:00	[11] Characterizing rare fluctuations in soft particulate flows	E. RAHBARI, S. H.
17:20	[85] Glass transition as the consequence of spatially correlated stochastic dynamics	MAJKA, Maciej
17:35	[162] Long range correlations in dynamical systems and in observed data	KANTZ, Holger
