

30th Marian Smoluchowski Symposium on Statistical Physics

Monday, September 4, 2017

Session 3: Panel B - 56 (4:30 PM - 6:05 PM)

-Conveners: Aleksander Weron

time	[id] title	presenter
4:30 P	[M5] Harmonic spectral components in time sequences of Markov correlated events with an application to EEG and MEG signals	CARBONE, Anna
5:00 P	[M1] Characterizing rare fluctuations in soft particulate flows	E. RAHBARI, S. H.
5:20 P	[M5] Glass transition as the consequence of spatially correlated stochastic dynamics	MAJKA, Maciej
5:35 P	[M62] Long range correlations in dynamical systems and in observed data	KANTZ, Holger
