

# 30th Marian Smoluchowski Symposium on Statistical Physics

## Wednesday, 6 September 2017

### Session 9: Panel A - Aula (11:00 - 12:35)

-Conveners: Ralf Metzler

time	[id] title	presenter
11:00	[138] Eliminating inertia of a stochastic microswimmer with constant speed	SCHIMANSKY-GEIER, Lutz
11:30	[129] Heterogeneous continuous time random walk on graphs	TUPIKINA, Liubov
11:45	[12] Dynamics of self-propelled colloidal particles in viscoelastic fluids	GOMEZ SOLANO, Juan Ruben
12:00	[7] The quantum first detection problem: from the energy spectrum to the detection probabilities	THIEL, Felix
12:15	[14] Switching of wake-mediated interaction caused by blockade effect and collective wake formation	KLIUSHNYCHENKO, Oleksandr
