

# 30th Marian Smoluchowski Symposium on Statistical Physics

## Monday 04 September 2017

### Session 2: Panel B - 56 (14:30-16:00)

**-Conveners: Robert Holyst**

time	[id] title	presenter
14:30	[74] A tribute to Marian Smoluchowski's legacy on colloid type matter aggregation, and related issues	GADOMSKI, Adam
15:00	[8] Stationary diffusion among partially reactive sinks: from von Smoluchowski to recent advances	GREBENKOV, Denis
15:20	[121] Stochastic advection-reaction-diffusion model for phytoplankton populations in a 2D spatial domain	VALENTI, Davide
15:40	[101] Thermodynamic activation energy for self diffusion and order-order relaxation in intermetallic compounds: atomistic model and Monte Carlo simulations	ABDANK-KOZUBSKI, Rafal
