

# 30th Marian Smoluchowski Symposium on Statistical Physics

## Monday, 4 September 2017

### Session 2: Panel C - 30 (14:30 - 16:00)

-Conveners: Zbigniew Grzywna

time	[id] title	presenter
14:30	[164] Transient anomalous diffusion in ratchet systems	LUCZKA, Jerzy
15:00	[9] Temperature-abnormal diffusivity and weak ergodicity breaking in space-periodic systems driven by external forces	MARCHENKO, Ivan
15:20	[26] Time-dependent fluctuations and superdiffusivity in the driven lattice Lorentz gas	FRANOSCH, Thomas
15:40	[109] Variational formula for the current generating function and finite-time thermodynamic uncertainty relations	DECHANT, Andreas
