

31st Marian Smoluchowski Symposium on Statistical Physics

Monday, September 3, 2018

Mon evening (4:30 PM - 6:00 PM)

time	[id] title	presenter
4:30 PM	[M] Emergence of Kardar-Parisi-Zhang dynamics from the etching model: A nonphenomenological description.	Prof. OLIVEIRA, Fernando
5:15 PM	[M3] When boundary conditions at a thin membrane create nonmarkovian normal diffusion	Dr KOSZTOLOWICZ, Tadeusz
5:35 PM	[M3] Stereological-fractal analysis as a tool for a precise description of the morphology of hybrid alginate membranes	Dr KRASOWSKA, Monika
