31st Marian Smoluchowski Symposium on Statistical Physics

Monday, 3 September 2018

Mon evening (16:30 - 18:00)

time	[id] title	presenter
16:30	[7] Emergence of Kardar-Parisi-Zhang dynamics from the etching model: A nonphenomenological description.	Prof. OLIVEIRA, Fernando
17:15	[13] When boundary conditions at a thin membrane create nonmarkovian normal diffusion	Dr KOSZTOLOWICZ, Tadeusz
17:35	[23] Stereological-fractal analysis as a tool for a precise description of the morphology of hybrid alginate membranes	Dr KRASOWSKA, Monika
