

31st Marian Smoluchowski Symposium on Statistical Physics

Thursday, 6 September 2018

Thu (09:00 - 10:30)

time	[id] title	presenter
09:00	[53] Active noisy oscillators - analytical approaches, stochastic phase description, and coupling effects	Prof. LINDNER, Benjamin
09:45	[11] Short-time molecular motion in simple liquids reflected in temporal, ensemble and wavelet variance MSD for self-diffusion	Prof. POSTNIKOV, Eugene
10:05	[18] Scale-dependent anomalous diffusion in spatially disordered environments	MUNOZ-GIL, Gorka
